Every day, teachers and parents are faced with unique challenges associated with the inclusion of children with specific or special needs in the classroom. Despite research showing the financial, educational and societal benefits of inclusion, the practical reality of inclusion is still a daunting task!

Eduplex Training Institute is hosting a practical workshop which aims to equip participants with basic knowledge and skills, to successfully include learners with different educational needs within a mainstream classroom environment.

Participants will need to complete online interactive lessons and multiple choice questionnaires prior to attending a three day practical course at Eduplex. During the practical workshop, theoretical aspects presented in the online interactive lessons will be reviewed and teachers will engage and observe inclusive classroom activities.

This workshop is specifically designed **for parents, preschool and primary school teachers, principals and government officials, and will be presented in a COVID FREE environment, utilizing state of the art CIMR® virus elimination technology.**

AS REQUESTED:
Practical tips and
discussions about the
management of inclusive
schools for principals
and government
officials will be
included.

WORKSHOP FEES INCLUDE?

- Access to online training (excluding data costs)
- Three day practical workshop
- Tea, coffee and lunch
- Training material and hardcopy books (Valued at R995)
