## I. ISASA ANNUAL SUBSCRIPTIONS

### GENERAL NOTE

ISASA charges annual subscriptions on a per learner basis, and according to a six-category sliding scale that caters for schools from all socio-economic circumstances. Each school is assigned to one of the six categories when it joins the association as an Active Member. The subscriptions model also allows for a marginal costing basis for schools with more than 2 000 learners. One further category – Introductory Status – is available for schools that do not yet meet all the requirements for Active membership but are working towards this goal. Introductory Status schools pay a fixed subscription rate per annum.

## 2. IQAA ANNUAL LEVIES

### GENERAL NOTE

As part of ISASA's quality assurance process, each member school must undergo an evaluation every six years. The evaluation is undertaken by the Independent Quality Assurance Agency (IQAA). Member schools pay an annual levy towards the cost of this evaluation. The levy is made up of a basic amount per school or school section (pre-primary, primary, secondary) and an additional amount per learner in that school section.
