

WEEKEND WORKSHOP

McREL's CLASSROOM INSTRUCTION THAT WORKS

Learn more about research-based, practice prove instructional strategies and ways to implement them in the classroom. Discover how each of the notable nine, high-probability learning strategies can be effective with any student, at any grade level, in any subject area, to enhance student achievement. Whether the CITW framework is new to you or something you use every day, this workshop is designed to help you raise your level of effectiveness.

McREL's mission statement...helping educators flourish by turning research into solutions that transform teaching, learning, and leading.

DR. ROBERT EVANS

Robert, the Director of Teaching & Learning at AISJ, is an authorized McREL facilitator for Classroom Instruction that Works. He has served as a principal in every division from early childhood through high school in schools in Egypt, Lebanon, the United Arab Emirates, and in the United States as well as taught undergraduate courses.

TOPICS WE WILL EXPLORE

How the classroom environment should support student learning:

- Setting objectives and providing feedback
- Reinforcing effort and providing recognition
- Cooperative learning

How students develop understanding:

- Cues, questions, and advanced organizers
- Nonlinguistic representation
- Summarizing and notetaking
- Homework and practice

How to help students extend and apply knowledge:

- Identifying similarities and differences
- Generating and testing hypotheses

This workshop is well suited for K-12 educators in all subject areas, staff developers, and instructional coaches. [Click here](#) to view the workshop schedule; the sessions rely on heaps of interaction and group discussions.
