

**ANNUAL
GENERAL
MEETING**

SAALED presents Dr Stephanie Gottwald Webinar Topic - "Using mobile devices for remote learning: What has been learned and how can technology reach its potential to support all learners"

**AGM Date & Time: Tuesday September 22, 2020
18:00 – 20:00**

SAALED's AGM will be held on Tuesday 22 September from 18:00 – 20:00.

Guest speaker Dr. Stephanie Gottwald, Co-Founder and Director of Content of the EdTech nonprofit Curious Learning.

Dr. Stephanie Gottwald, a highly respected speaker, will be joining the webinar from Boston, USA. Her topic is "Using mobile devices for remote learning: What has been learned and how can technology reach its potential to support all learners".

Even before the onset of the Coronavirus pandemic, teachers, schools, and parents raised many questions about the value of using apps or technology for teaching. The closing of schools has forced schools to quickly implement technology-based tools for reading and math instruction. How has that worked? What has been learned about how technology can adapt to the needs of children in-school or through remote learning? This workshop will summarize some of the most promising implementations with a focus on early grade literacy learning. In addition, participants will gain an understanding for the unique potential of mobile devices to reach struggling readers and inspire all children to become engaged readers.

Everyone is welcome to attend this webinar.

SAALED and ISPIE Members Free (please reference your Name and Membership Number)

Non-members R50.00 - please register for the webinar using this link <https://www.saaled.org.za/store/>

Proof of payment to be sent to events@saaled.org.za
